Summary

Hey! I'm a novice specialist in Front-end Development. I carry out my work properly and with responsibility because I really like all things to be done well. I actively develop my professional hard and soft skills and enjoy making accessible websites with high quality of user experience across all platforms, with attention to every single detail.

Experience

Front-end Developer Intern

Liga A

Sept 2022 – Present

I am a member of the developer team with high-quality Web development standards and well-established processes of work. I take part in commercial projects with responsibility for website components and tasks entrusted to me. In work I use HTML5, CSS3, Pug, Sass, JavaScript, Git, CLI.
